W-STRAP

Australian Rollforming is a custom metal rollforming specialist, with the capability to roll form an almost infinite number of profiles in a wide range of metals.

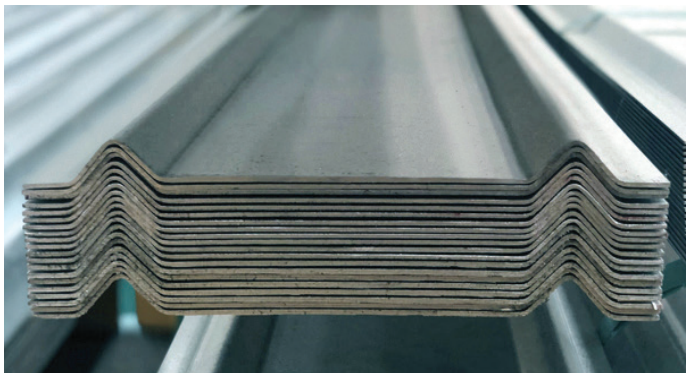
Australian Rollforming Manufacturers' W-Strap is light and strong, and rolled from galvanised high tensile steel making it suitable for a number of different rural applications.

The W-Strap is suitable for fences, gates, stockyards, stock crates and stock trailers. With the double rolled edges it mitigates risk of injury keeping animal safety top of mind.

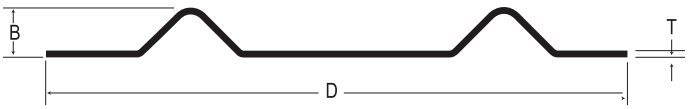
We roll it in 3 different styles and sizes: flat edge, single rolled edge and double rolled edge and 7", 9"and 11".

We can also offer custom manufactured profiles with non-standard sizes and lengths.

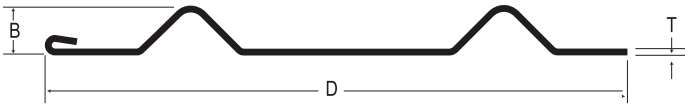
Contact us to discuss requirements, customisation and availability. Additional technical specifications including section properties are also available on request.



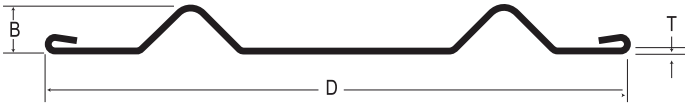
Flat Edge Profile



Single Edge Profile



Double Edge Profile



Notes

1. Made from 1.5mm galvanised steel or hot rolled on enquiry.
2. Available in 7", 9" and 11" widths.
3. Stock is available in 6.1m lengths in straight edges, single rolled edge or double rolled edge.
4. Rounded edge makes it easier to handle.
5. Many uses around the farm and homestead.
6. Non stocked items and all uncoated Stockyard Rails are subject to minimum order quantities - please enquire.

Size Range

Part No.	Profile Description	Nominal Dimensions			Mass			Lengths (m)
		D (mm)	B (mm)	T (mm)	Flat Edge (kg/m)	Single Edge (kg/m)	Double Edge (kg/m)	
W-Strap (7")	180x18x1.5	180	18	1.5	2.46	2.51	2.63	6.1
W-Strap (9")	230x18x1.5	230	18	1.5	3.06	3.10	3.22	6.1
W-Strap (11")	280x18x1.5	280	18	1.5	3.66	3.70	3.82	6.1
